

Sage Services Group receives dual ISO accreditation in Quality Management System ISO 9001:2015 and Medical Devices ISO 13485:2016

Sage Services Group, LLC (Sage) is pleased to announce it has successfully completed an independent audit by NSF-ISR and received both ISO 9001:2015 and ISO 13485:2016 certificates by meeting the high standards set by the International Standards Organization (ISO).

Charleston, SC, January 15, 2018- Sage Services Group, a leading provider of medical patient monitoring services, parts, and accessories; today announced dual certification to ISO 9001 and ISO 13485 standards. ISO 9001 is the world’s most recognized quality standard, awarded to Sage for its Quality Management System (QMS). ISO 13485 specifies requirements for an organizations ability to consistently meet customer and regulatory requirements applicable to medical devices and related services. The achievement proves Sage’s ability and commitment to providing the highest quality products and services to its customers and further establishes Sage as a leader in the medical equipment/services marketplace.

Sage has been ISO 9001 certified since 2014 and was proactive in getting certified to the Medical Device Standard of ISO 13485. Company President and Founder, Joe Harper, believes the achievement of dual certifications is “a great accomplishment by our team and further demonstrates our commitment to delivering the highest levels of quality as well as regulatory compliance to our clients.” Harper adds, “Sage has now elevated itself for further expansion in the patient monitoring marketplace. We’re excited about our growth and the level of confidence this provides our current and future customers.”
